Info from GV "A" in re the "AJAC" terrorist group: Dr. Leopold VOLLER of Salzburg was suspected in connection with a documentation fraud and was arrested in Feldkirch. (One Wolfgang Emanuel von ROTHENBURG of Feldkirch was arrested for a phony uranium deal and attempted swindle of a Geneva merchant named KAISER; he also worked in intelligence for the US, served as courier for a legitimist group, and procured documentation for Walter MUSSERLEITNER, who is involved with "AJAC.") He was arrested, with dope, on a narcotics charge but his release was effected, after he stated he worked for US intelligence, by DE NOVI, CID Salzburg. Subject has informed C-1 that he is in direct contact with OFFSPRING and has received binding promises for the placing of his presumed collaborators. He claims to have a strong intelligence organization of his own, specializing in collecting communist information, influencing US authorities by doing so, direct counter intelligence, offensive work against the CP, splitting the CP, and influencing the press. He asked C-1 to contact the Tyrolean Catholic periodical Volksbote, to make arrangements for publishing subject's submissions without revealing his authorship. Subject also informed C-1 that he had reached agreement with his "US connection" whereby he could sever same on any first of the month for the end of that month.
